ZEPPELINS RENEW RAIDS ON BRITISH CITIES

BOMBS DROPPED ON HULL IN RAID OF THREE ZEPPELINS; THE FIRST IN MANY MONTHS

Two Raiders Fly Aimlessly
About After Crossing the
Yorkshire Coast.

OPENCOUNTRYSHELLED

Only One of the Machines At-
tempts to Approach the
Defended Section.

LONDON, March 13.—Three Zeppelins participated in a raid on England last night. Lord French, Commander of Home Defense, announced to-day. Only one ventured to approach the defended district.

Four bombs were dropped at Hull. A house was demolished and a woman died of shock.

This is the first time Zeppelins have participated in an English raid since last fall.

The Zeppelins came over the York-

shire coast between 8:30 and 10 P. M.

Two of the raiders wandered for some hours over remote country districts at great altitudes, unloading their bombs in open country before proceeding out to sea again.

"On Monday," says an official statement issued to-day, "we made the third daylight raid on Germany in four days. On this occasion factories, stations, and barracks at Coblenz were attacked and over a ton of bombs were dropped."

"Bombs were seen on all the objectives, causing two fires, and a hit on a building in the southwest corner of the town created a very large explosion. Few enemy machines were encountered. All of our machines returned safely."

WOMEN AND CHILDREN KILLED IN PARIS RAID; DEATHS TOTAL 100

Sixty-Six of Victims Suffocated
Seeking Refuge in Subway—
Seventy-Nine Injured.

PARIS, March 13.—One hundred persons were killed and seventy-nine others were injured in Paris and its suburbs as a result of Monday night's German air raid. Of the persons who died, sixty-six were suffocated through crowding in a panic into a Metropolitan Railway entrance to take refuge from the raiders. These were for the most part women and children. A total of the victims twenty-nine were killed and fifty injured in Paris, and three hundred and twenty-nine in the suburbs.

The Germans lost four airplanes,

squadrons taking part in the

15-DAY SHUTDOWN FORECAST TO FREE LABOR FOR FARMS

Assistant Secretary of Agriculture Declares Non-Essential Industries Must Close.

WASHINGTON, March 13.—Closing down of the less essential industries for fifteen days during the spring to enable workmen to go to the farms will be necessary in many places to meet the farm labor shortage, the Senate Agricultural Committee was told to-day by Clarence Outley, Assistant Secretary of Agriculture.

"There is not an industry not engaged in actual war work which could not afford to close down for fifteen days," Mr. Outley said. "There is not enough labor seeking employment to meet the demand. And the shortage must be made up from the cities, but from among men who have had actual farm experience."

The closing could be arranged by the local communities, Mr. Outley said, and he asked that members of Congress communicate with business men in their States to urge that this be done. The fifteen-day period could be distributed over the spring planting season, closing the industries for a few days at a time, he said.

Other steps must be taken before the numerous farm problems are met, Mr. Outley said, including the employment of women to do some of the light work now performed by men.

Mr. Outley said he was confident there would be a greater acreage in 1918 than in 1917.

9,500 MORE RAILROADERS
TO BE RAISED FOR FRANCE

300 Commissioned Officers Will Be Included in New Quota for Service Abroad.

WASHINGTON, March 13.—Nine thousand five hundred additional railroad men will be recruited in this country for service abroad. Major E. M. Sanctuary of the Army Recruiting Service will leave to-night for Cleveland to consult the Railroad Brotherhood Chiefs to assistance in the campaign.

The 9,500 railroaders will include about 300 commissioned officers.

SPANISH SHIPS TO SAIL.

Washington Authorizes Departure Under Trade Agreement.

WASHINGTON, March 13.—Beams, mules and blankets ordered for German ships are expected to be shipped soon, now that the Spanish-American commercial agreement has been ratified. The War Trade Board to-day authorized immediate loading of seven Spanish steamers under the agreement. The steamers are being loaded with cotton and manganese rock for fertilizer.

On Saturday, April 1, Spain will be able to export cotton and manganese rock to Great Britain, and the American ships will be ready to sail.

SKY FIRE! To ruin my car, we went it for us to leave the garage and the United States. The Americans are barbarians than the Germans. Softness and tenderness in wartime.

SHUT DOWN AT 1, HYLAN'S ORDER; NO ALL NIGHT LICENSE

Mayor Also Writes Enright to
Prevent "Indecent Dances"
at the Metropolitan.

Mayor Hylan this afternoon wrote two letters to Police Commissioner Enright. In one the Mayor declared against all-night licensees in this city, and in the other he rebuked the Metropolitan Opera House for permitting the much-talked-of dance of Miss Muller.

The letter concerning the saloons was as follows:

"My Dear Commissioner:—After giving consideration to the question of granting Special All-Night Liquor Certificates, I have concluded that it would be very unwise during the period of the war to grant any extension of the privilege of selling liquor after 1 A. M.

"If the privilege is granted to one, there is no good reason why it should not be granted to all, thus who conduct their business in an orderly and lawful manner should be our desire to make some sacrifice during these unusual times."

Concerning Miss Muller's exhibition the Mayor wrote:

"My Dear Commissioner:—Enclosed find a copy of letter from a citizen, also, I hope, with reference to a nude dancer who recently appeared at the Metropolitan Opera House. This young woman claimed to have appeared in the name of art, but most people believe it was an indecent exhibition.

The closing could be arranged by the local communities, Mr. Outley said, and he asked that members of Congress communicate with business men in their States to urge that this be done. The fifteen-day period could be distributed over the spring planting season, closing the industries for a few days at a time, he said.

Other steps must be taken before the numerous farm problems are met, Mr. Outley said, including the employment of women to do some of the light work now performed by men.
